

HOW DO YOU LOG IN TO REGSOL.BE WITH STRONG AUTHENTICATION FOR THE FIRST TIME WITH YOUR E-ID, ITSME OR YOUR LAWYER'S CARD?

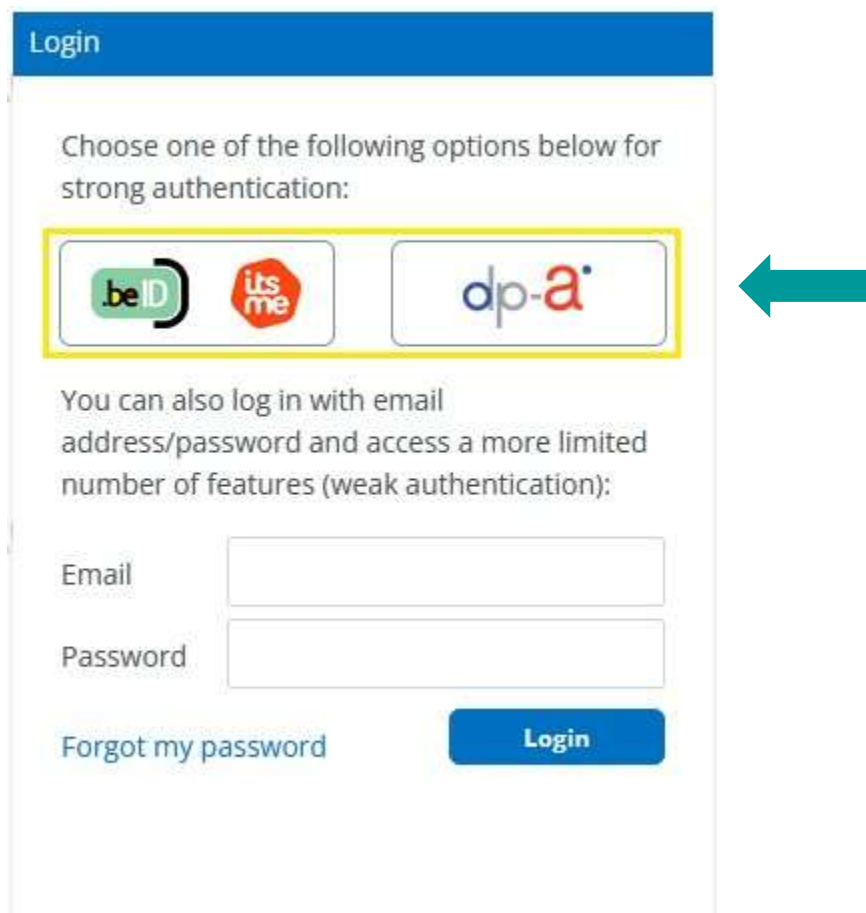

To log in with strong authentication, you must first link your national register number or your lawyer's card number to your account. You will only need to do this once. Follow the steps below:

- Go to regsol.be and log in with your e-mail address and password
 - Click on your e-mail address at the top right
 - Go to "User management"
 - Click on the blue "Change" button under the "Personal information" section • Click on "Get NRNR" or "Read lawyer's card number"
- a) *For a one-time strong link with your **NRNR** you will be redirected to CSAM where you must enter your PIN code*
- b) *For a one-time strong link with your **lawyer's card** number you will be redirected to Zetes where you must enter your PIN code*
- Once your NRNR or lawyer's card number has been linked, a green check mark will appear next to the number
 - To complete strong authentication, you must: **log out and log back in again**. NB: this time you do this with your e-ID, Itsme or lawyer's card

HOW DO YOU LOG IN TO REGSOL.BE WITH STRONG AUTHENTICATION?

Log in with strong authentication by using your e-ID, Itsme or lawyer's card. The proviso here is that you have previously linked your national register number or lawyer's card number successfully to your account on regsol.be.

When logging in to regsol.be, choose one of the following buttons.

The screenshot shows a login form titled "Login" with a blue header. Below the header, it says "Choose one of the following options below for strong authentication:". There are three buttons: "beID" (green), "Itsme" (red), and "dp-a" (blue). A yellow box highlights the "beID" and "Itsme" buttons, and a teal arrow points to the "dp-a" button. Below this, it says "You can also log in with email address/password and access a more limited number of features (weak authentication):". There are input fields for "Email" and "Password", a "Forgot my password" link, and a blue "Login" button.

To start a session with strong authentication, you must: **log out and log back in again**. NB: this time you do this with your e-ID, Itsme or lawyer's card.
